NBX-SHELF-SMP

The NBX-SHELF-SMP is a universal 19" rackmount shelf designed to conveniently accommodate up to 10 NanoBrix v1.0 modules.

The NBX-SHELF-SMP occupies less than 2 RU coming in at 2.9 inches in height and 7.5 inches deep. The unit comes complete with dual redundant power supplies and locking DC power connections for each module.

Providing another level of flexibility the NBX-SHELF-SMP allows users to build cost-effective purpose-built systems. Also, the unit is ideally suited for organizing flypacks and mobile production applications by eliminating multiple AC adapters.
